# QIDENUS SMART

BOOK SCANNER

## SMART

Book Scan 4.0

[def.: [manual book scanner](#)]

The capturing technology of latest CMOS sensors delivers outstanding image quality.

The V-Shape system in gentle 100° treats inserted material and originals conservatively.

The glass-plate of specially coated glass provides the operator with speed & ease in handling.

The consequent system construction results in outstanding productivity for a manual system.

Finally, sturdy design!

QIDENUS TECHNOLOGIES

**Max. Cycle Speed**

1.000 pages/hour

**Available Sizes**

A2 // A1

\*customisable on demand

**Book Cradle**

100° opening angle

smooth side flaps

book spine support

**A2 Model**

max. book size: 58cm x 44cm (per page 29 x 44cm)

max. book thickness: 16cm

image resolution: 300 // 400 // 500//700ppi \*\*

dimensions / weight: 103 / 71 / 117cm // 87kg

**Paper Weight & Quality**

no restriction on texture and quality

can scan brittle, acid, torn and single pages

**Color Tone**

24 bit color, 8 bit greyscale, 1 bit b/w

**multidotscan Software by Walter Nagel**

comprehensive capture and image processing software, live preview quality control, automated post-processing, intuitive design, multiple workflow support and automatic document detection & OCR\*\*\*

**Language Packs**

German, English

**CMOS Capturing System**

Canon D-SLR 850D

Canon D-SLR 5D Mark IV

Canon R5

FUJI GFX 100//100S

\*Compatible with all future camera developments

**Operating Modes**

soft manual

**Lighting System**

special designed LED - museum standards

no UV // IR

**V-Shaped Glass-plate**

aluminum light weight frame

hardened / double coated / 3mm thick glass

\*customisable on demand (glass, acryl, easy mount)

**A1 Model**

max. book size: 82cm x 61cm (per page 41 x 61cm)

max. book thickness: 16cm

image resolution: 300//500ppi \*\*

dimensions / weight: 115 / 90 / 136cm // 99kg

**Image Formats**

JPEG, TIFF, Multi-TIFF, RAW, PDF;

\*additional format implementation on demand

**IT System**

Processing system for image capturing & batch processing

**Application**

can scan all materials in matching format and size  
no limitations on book quality & weight

**Optical Lens Systems**

Sigma 30mm

Carl Zeiss 35mm Milvus

Carl Zeiss 50mm Milvus

Carl Zeiss / Sigma / Fujinon

\*Compatible with all future lense developments

\* for additional information please contact our technical team

\*\* dependent on applied camera system

\*\*\* OCR licenses upon request to Qidenus Technologies

We reserve the right to make technical changes without notice.
